

Children Must Complete Eighth Grade Before Leaving School, Law

The law governing the employment of children under 18 years of age is now in effect, according to Miss Helen Dornbach in charge of the Vocational Guidance bureau. Miss Dornbach explains the new law in this way:

"All children must complete the eighth grade or be 16 years of age before they can receive permission to leave school and secure an employment certificate. The new law also requires that before an employment certificate is issued the child must pass a physical examination to show physical fitness for the work he seeks to do. Employment certificates are required by law until the minor is 18 years of age."

Want Full Attendance.
Word has been given out by the state attendance department, according to Miss Elizabeth Turner, director of the local department, that an attempt will be made to have the school attendance reach 100 percent the first day. In this case the cooperation of every parent and guardian in the city to help South Bend head the list in the largest average of attendance that first day.

Sept. W. W. Borden, in announcing the teachers and school officers for the year, says that the teachers listed under "unassigned" does not mean that all of the positions are filled. There are still vacancies and that the vacancies for these teachers have not been chosen.

Board of Education.
C. J. Jackson, president; Dr. R. B. Dugdale, secretary; William Clem, treasurer; Marian Ames, secretary to board; Modesta Bismil, clerk.

Lincoln School.
Julia Malone, principal; Berna-

And Now You Have It—

I'm asking you to read every word of this advertisement. For, I want you to have a better understanding of our Profit Sharing Plan.

I want you to know exactly what a Heller Income Participating Certificate is, what it has done, and what you can confidently expect it to do for you.

You would like to have your money earn ten (10%) per cent, wouldn't you? Then here is the proposition in a nutshell.

For every \$52.50 you invest with us—this investment to be paid us either in cash or deferred payments—we guarantee to return \$100. This amount is returned to you monthly in the form of a check, which varies from month to month, depending upon our gross sales. Out of every dollar that comes into the store, 5% is placed into a sinking fund—this represents your part of the earnings of this Company—and is then mailed to your home the first of every month.

These checks have been averaging about 12% per annum, but we have reasons for believing they will be much larger in the future—anyway we guarantee to pay you at least 10% each year.

The reason for selling Participating Certificates is to secure sufficient additional capital to carry many good accounts, take on extra business that is daily offered to the store, but which necessitates extending time credits to many worthy and honest people desirous of purchasing furniture but who have not sufficient funds for complete cash payments.

Every dollar of the money realized from this sale of certificates will be devoted exclusively to the merchandising business, including the utilization of all special opportunities for favorable purchases, as well as enabling the company to further extend the accommodations of its popular and convenient terms of credit on which, it is a pleasure to state, the losses are practically nothing—a tribute to the hundreds of home-loving customers who regularly patronize this store.

And think of the good advertising! The outcome of this plan will be that we will have about 1,000 progressive people, constantly boosting this store—it means they will buy their furniture needs from Heller's—their store.

This offer is not limited to residents of South Bend. Any person who is today, or expects to be, a customer of Heller's is cordially invited to take advantage of the same.
